Purpose

The purpose(s) for which we are processing your personal data is to support the delivery and administration of the grant project.

Delivery and administration of the Scheme may require linking of your data to other datasets held by Surrey County Council or the Department for Business, Energy and Industrial Strategy (BEIS).

BEIS will be conducting an evaluation of the Scheme. This may include you being contacted to take part in further research. Where the research involves processing of personal data in addition to that already collected for delivery of the Scheme, you will be given the opportunity to opt-in to that research at the point of contact.

Your data may also be used for statistical, research and fraud prevention purposes.

Legal basis of processing

The legal basis for processing your personal data is to deliver the grant scheme:

a) **Consent:** You consent to us doing so. Use of your data to contact you to take part in further research will be subject to your consent.

(b) **Legal obligation:** It is necessary to comply with a legal obligation placed on us as the data controller

Public task: Processing is necessary for the performance of a task carried out in the public interest. The specific public task is the delivery, administration and evaluation of, as well as statistical, research and fraud prevention purposes relating to, the Scheme, a government funded scheme aiming to raise the energy efficiency of low energy performance homes (those rated at EPC Band D, E, F or G), including off-gas grid homes. The Government funding is provided to Local Authorities who set up arrangements for consumer engagement and the delivery of installations in homes.
